Important information: The certificate stays the possession of KEZ o.p.s. and its validity finishes following the end of the period that was issued for. In addition, its validity finishes by issuing another certificate (for example recertification, extension of certification), terminating the contract on inspection by any of the contract parties and finding of violation to the provisions of the appendix No 3 PP-05 of the programme "KEZ recommending to use in organic agriculture" and the licence contract leading to denial of certification. Following the termination of the certificate validity, it is necessary to replace it by a new certificate issued by KEZ o.p.s. on the basis of a non-interrupted inspection and certification process.
